

Experience Ultimate Financial Control

Meet Canada's smartest corporate card and spend management software.

Issue worry-free employee cards

No more worrying about employees having access to company spend.

- Issue every employee a \$0 balance physical card
- Add funds when you need to
- Set Recurring and Temporary spend limits for more control

Control large vendor spending

Ditch the catch-all account with vendor-specific virtual cards.

- Get real-time visibility into software and advertising expenses
- Temporarily increase spend limits as needed
- Dial limits back to \$0 post-purchase

Limit risk with single-use cards

Stop losing sleep over unauthorized spending.

- Limit risk for purchases at new merchants
- Use one-time use virtual cards for trial subscriptions or one-off buys
- Auto-delete cards to keep things organized

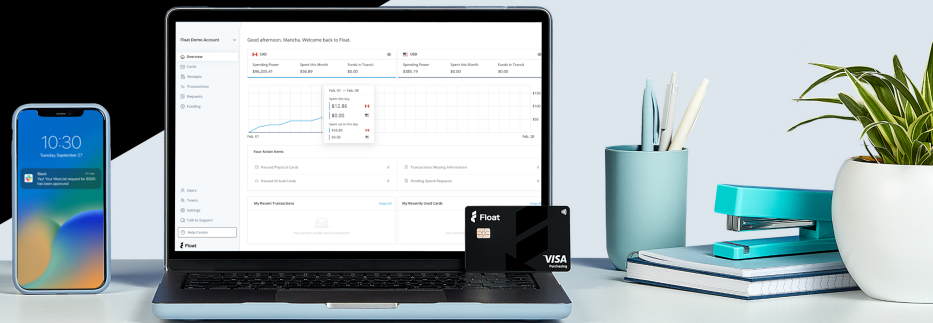

Visit floatcard.com to see how our new smart corporate cards give you even more control and flexibility for your corporate spend.

“Float adds another check and balance to our arsenal that we didn’t have before.”

Gino Cacciatore, CFO
Skybox Labs

Easily manage your USD and CAD spending all in one place

Float Cards are available in USD and CAD currency so you can spend, track, approve and reconcile all your CAD and USD expenses in one platform. Issue unlimited* cards to your team, worry-free.

Digitize your expense policies and control spend

Implement your company expense policies directly on your Float Cards and ensure employees submit all required expense information on time, every time.

Simplify purchase approvals with Teams and Approval workflows

Group members into Teams and set up multi-level approval workflows for spend requests. Put an end to paper trails and proactively approve spend in-app or via Slack.

Eliminate receipt chasing and expense reports

Float’s automatic SMS and Inbox receipt forwarding ensure that all spenders submit their receipts on time. Automated receipt matching eliminates the need for manual expense reports and reconciliations.

Close the books faster with Float’s accounting integrations

Export all of your expenses into your accounting platform directly from Float. Exports include embedded receipts, GL and tax codes, and categories to save you time at month end.

Save while you spend with Float

Float provides custom insights designed to help you spend less. Plus, you pay zero transaction fees on your USD spend with Float’s USD Cards, and enjoy unlimited 1% cashback on monthly spend beyond \$25k.

*Unlimited physical cards for Professional plan members only
