Choosing the Right Plan

Number of users

Float plans scale with the number of users required to use the platform - the more users onboarded to Float, the greater the savings

Support and Success

Float provides easy self-serve onboarding to start saving faster. Onboarding support is also available depending on your business needs

Level of control and customization

Float offers the essentials for automating accounting and receipt collection. Or, get more control with flexible Policies and Controls to help manage spend in real-time

Financial Flexibility

Float meets your business at your stage of growth. From easily accessible Pre-funded cards to fast underwriting, higher limits, and greater access to credit
